

SBRC Application for Increasing Enrollment, Open Enrollment Out, and Limited English Proficient Instruction Beyond Five Years

Due December 1, 2016

Section 1: Increasing Enrollment

School districts showing an increase in the actual enrollment (row 7) from October 2015 Certified Enrollment to October 2016 Certified Enrollment have an opportunity to receive an on-time funding budget adjustment up to 100% of the enrollment increase by making a request to the School Budget Review Committee (SBRC), (IC 257.13, subsection 3). Increasing Enrollment in the SBRC Application is the location for requesting an on-time budget adjustment. The application has been prepopulated with all relevant enrollment information from the prior and current year's Certified Enrollment. Complete the request amount up to the maximum allowed. The amount of the request cannot exceed the amount indicated on the Maximum On-Time Funding Modified Supplemental Amount for Increasing Enrollment line. By clicking "Request Max", the maximum on-time funding amount will be copied into the Request box. This amount can then be modified, if needed.

(Generated nightly, changes to Certified Enrollment are reflected the following day)

Section 2: Open Enrollment Out not in Fall 2015

Iowa Code section 282.18(9)(e) allows a district of residence to apply to the SBRC for a modified supplemental amount if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment. The resident district will be paying tuition for that student during the current year.

The modified supplemental amount for open enrollment out students will be calculated on the full time equivalent (FTE) of the open enrollment out students not on the previous year's Certified Enrollment count, minus the FTE of students included on the application form for increasing enrollment, times the state cost per pupil in the previous budget year. Students to be included in this request are determined individually by state IDs. A list of all open enrolled out students can be displayed by clicking on the count of Open Enrolled Out Students on Fall 2016 Certified Enrollment. Students with a missing FTE value from the prior year are the eligible students included in this portion of the application.

Complete the "Request" line if the district wishes to make a request to the SBRC. By clicking "Request Max", the amount from the Maximum Modified Supplemental Amount will be copied to the Request line. The request can then be modified, if needed. Do not enter a \$ or commas. The request must be a whole number (no cents).

(Changes to student data are reflected immediately)

Section 3: ELL Beyond 5 Years

Iowa Code sections 280.4(3) and 257.31(5)(j) allow the resident district to apply for a modified supplemental amount to the SBRC to fund LEP instruction beyond five years for resident students served in the district of residence. LEP programs are also known as Language Instruction Educational Programs (LIEPs).

The modified supplemental amount will be calculated by multiplying the number of resident students being served beyond five years times the 0.22 weighting, times the district cost per pupil in the current year. The names of students being served beyond 5 years can be viewed by clicking the count of Students Served Beyond 5 Years. Data for this section are populated from the district's Fall 2016 SRI data collection.

To submit a modified supplemental amount request to the SBRC for ELL Beyond 5 Years, click "Request Max" and the maximum modified supplemental amount will be copied into the Request line. The maximum amount can be modified as needed. Do not enter a \$ or commas. The request will be rounded to the nearest dollar.
